All new students interested in registering must go through a screening process. This includes using the following information and *may* also include a one-on-one meeting see if our dance program would be appropriate for your child. If it's a good fit, we'll move forward since the old saying holds true: *We can't know for sure until we try!* Our goal is to provide a positive dance experience for your child and although we never want to turn any child away, safety is our number one concern. Please share important information necessary to help us facilitate a positive outcome for our students in the dance room. Let's work *together* to give your child the opportunity to **Dance!**
